Adventist Health receives permit approval from the Town of Paradise to proceed with the Skyway Clinic renovation and expansion project.

Adventist Health received permit approval from the Town of Paradise to proceed with a \$2.4M renovation and expansion project at the Feather River Health Center on Skyway. This initiative will create a larger, dedicated Rapid Care Clinic area, remodel the Primary Care Clinic to increase patient access and provider capacity and re-establish Women's Imaging to include mammography and bone density tests.

New Rapid Care Unit — The former pharmacy area on the main floor will be converted to create a new 2,100 sq ft. Rapid Care Unit with eight exam rooms, a dedicated space for associates and providers as well as a back entrance designed to create easier access for ambulances if required.

New Primary Care Clinic — The medical records office on the lower level will be redesigned to create a new, dedicated 2,300 sq ft. Primary Care Clinic with seven exam rooms, a waiting area, and a new break room for all providers.

New Women's imaging services — These services will provide mammograms and bone density tests and will be added adjacent to the Rapid Care Clinic to serve the Women's Health Clinic.

"The care and well-being of our patients is our highest priority. Since 1950, Adventist Health has been committed to healthcare in Paradise and we will continue to invest our resources. The Skyway Clinic renovation and expansion project represents the first segment of a multi-phase plan. Our long-term, scalable plan is designed to improve our access to quality care and recruit more providers to meet the community's current needs and ensure they are sustainable well into the future. We appreciate the contribution and partnership with town leaders and community members as we continue to focus on our ability to contribute to the growth of the area as it rebuilds." — Chris Champlin, President, Adventist Health and Rideout and Adventist Health Feather River.

Steve Crowder, the former mayor of Paradise, shared his appreciation for the clinic expansion. "The Town of Paradise is grateful for the health care services Adventist Health provides the community. We are excited about the much desired and long-awaited planned expansion. I look forward to working with the Adventist Health leadership team as we continue to build a promising future."

Construction is scheduled to commence mid-summer, with a completion target of late November to early December 2023. Adventist Health looks forward to welcoming patients to the renovated space in early January 2024.

Today, Adventist Health operates two medical clinics in Paradise located at 5125 Skyway and 6283 Clark Road. Collective services offered between the two locations include Behavioral Health, Dental, Dermatology, Primary Care, Rapid Care, Specialty Care, Women's Health, Imaging and Lab services. The Feather River Health Center on Skyway will continue to see patients during construction. Hours of operation and appointment requirements vary by service; for additional information about our services, **visit** . <https://www.adventisthealth.org/feather-river/services/>.

About Adventist Health

Adventist Health is a faith-based, nonprofit, integrated health system serving more than 80 communities on the West Coast and Hawaii with over 400 sites of care. Founded on Adventist heritage and values, Adventist Health provides care in hospitals, clinics, home care, and hospice agencies in both rural and urban communities. Our compassionate and talented team of 37,000 includes employees, physicians, allied health professionals and volunteers driven in pursuit of one mission: living God's love by inspiring health, wholeness, and hope. We are committed to staying true to our heritage by providing patient-centered, quality care. Together, we are transforming the healthcare experience with an innovative and whole person focus on physical, mental, spiritual, and social healing to support community well-being.
